Subject: Re: stormwater question

Hi Molly,

Sure. I can give you the very short answers :).

1. The measure stalled at the County Board of Supervisors level.. It didn't die but it was more like in postponement status, although no action seems likely at the moment
2. The efforts have shifted towards cities, city levels, and even potentially at watershed levels. I've heard of some efforts and push at those levels.
3. Our role, I believe, it so support these efforts thru our commission and staff, at various capacities. I know with the Stormwater permit fee measure Shelley was very involved, for instance.

Well maybe you could answer... from what I heard the fee did not pass and is not totally but sort of 'dead' right now....

1. Is that correct?
2. Do you know what next steps are (are there any currently planned?)
3. If so- what is the NEPs role in next steps

If you can answer these- even approximately – great- if not no big deal- it can wait til another time.
Thanks for your help as always!

Hi Molly,

Jack is also on vacation unfortunately but we've collaborated with one of LA County's most knowledgeable guys on this issue, he's also very nice and bright. I can get you his contact/phone # if that works for you, just let me know. :)

Subject: stormwater question

Hi Marcelo,

I know Gungyu is out right now.... I have a question about the LA County stormwater fee plan. Would jack be the best person to talk to on that? And is he in today? Thanks!
